## **SRATI CLINICAL TRIAL NETWORK (SRATI-CTN)**

### **Objective**

The ROMANIAN SOCIETY OF ANESTHESIA AND INTENSIVE CARE Clinical Trial Network provides an infrastructure for Clinical Institutions, clinicians and scientists allowing to work collaboratively across international borders to improve the care of patients in the field of Anaesthesiology and Intensive Care. The aim of the SRATI Clinical Trial Network (SRATI-CTN) is to build such a collaborative network.

### **Studies**

In view of these facts, the SRATI, as a society with more than 2000 members working in Romania, decided in 2017 to establish the SRATI-CTN, to facilitate, integrate and support clinical anaesthesiology research on an international level.

### **Join the Clinical Trial Network**

The call for centers is open!

### **Call for Study proposals**

Call for study proposals is now open!

### **CTN proposals**

The SRATI Research Committee selection for the new SRATI-CTN study proposals for the 2017-2018 SRATI-CTN will be available in August 2017.

### **Information**

## SRATI Clinical Trial Network: Call for Study Centers

### Benefits

A CTN support is provided for Study Management. The support is intended mainly to cover travel costs for steering committee meetings, use of a statistician, and possibly study coordination assistance at the institution of the principal investigator (PI). In addition to the financial support, the SRATI offers to the PI and steering committee members a valuable coordination support package:

- administrative,
- technical and logistic help for all phases of the study: preparation of documents,
- centre set-up and coordination,
- case report forms and cleaning of the data.

### Eligibility

Every physician can apply for support by the SRATI - CTN. Non - SRATI members who are health care professionals are entitled to present proposals in the field of clinical anaesthesiology research on an international level.

- The SRATI - CTN is open to all clinicians meeting study protocol criteria.
- Centres throughout Europe are invited to participate in SRATI - CTN studies.
- In case several individuals from the same department apply to participate in the same study, only one person for each centre will be appointed as responsible for the centre and will be referred to as 'Local Coordinator'.

## ROMANIAN SOCIETY OF ANESTHESIOLOGY AND INTENSIVE CARE

### Medical Education and Research Department

no. 156 Liviu Rebreanu street, 300723 Timisoara, Romania

tel fax. 004 0256 48 88 44

www.srati.ro

- If several departments from the same institution apply to participate in a SRATI - CTN study and if these departments have buildings at different locations, it may be possible to consider the 2 locations as 2 separate study sites.
- For all SRATI Sponsored studies, at least one person of the Institution taking part in the CTN study must be an SRATI member and will be required to provide an SRATI membership identification.

### Process

You are invited to submit contact details on behalf of your hospital in order to become an SRATI - CTN centre participating in one or more studies.

- Completion of the Call for Centres Form will facilitate coordination and is mandatory for registering the Institution's participation in an SRATI - CTN study.
- All fields on the 'Call for Centres form' marked with an asterisk are mandatory.
- The SRATI Secretariat will acknowledge receipt of the 'Call for Centres form' and will contact centres providing them with additional study information.

CONF. DR. OVIDIU BEDREAG  
GENERAL SECRETARY - SRATI

DRD. ALEXANDRU ROGOBETE  
RESEARCH DEPARTMENT SECRETARY
